Mayor Randy George,

This letter is in response to your inquiry and our discussion about the safest community in Passaic County. I did some research and it is difficult to determine how the media chooses the "safest town." What I can provide you is with the actual Uniform Crime Report Data for the communities of Passaic County. The crime data that is reported is for violent crimes such as Murder, Rape, Robbery, Larceny and Auto Theft.

In the year of 2018 North Haledon had the least total reported incidents of all the other communities in Passaic County. Using these statistics as a guide I would be able to safely say that we have the lowest reported crimes in the county. I have attached the data from the New Jersey State Police Crime Report Statistics Unit for you to review.

Respectfully submitted,

  
Acting Chief Todd Darby
